### Original Huawei FreeLace CM70-C Wireless Earphones

The Huawei FreeLace headphones will provide you with up to 18 hours of playback time, on a single charge. Thanks to its ergonomic design and premium materials, these headphones will be the perfect workout companion. The Huawei FreeLace Bluetooth earphones are IPX5 rated which means they are resistant to sweat and rain so that you can carry them around worry-free.

These remarkable earphones are equipped with the Huawei HiPair technology - once you plug it in your Type-C enabled device, it will complete the whole pairing process and will also be ready to be reverse charged by your phone.\*

Thanks to the premium dynamic drivers and ultra-thin TPU diaphragm you'll experience immersive sound quality with rich bass and melodious treble. When it comes to calls - the Huawei FreeLace are equipped with the Wind noise reduction to ensure crystal clear sound.

Another great thing about Huawei FreeLace wireless headphones is the long battery life - they provide up to 18 hours of playback once fully charged, and only 5 minutes of emergency charge provides up to 4 hours of listening time.

The innovative Hall magnetic sensor can detect if the earphones are in use - snap the earbuds together to end the connection and separate them to reconnect, so that you can get back to your favorite music.

Durable cable is made of memory metal and coated with nickel-titanium alloy and liquid silicon to provide a feeling of comfort on your neck. Three convenient buttons are placed on the cable so that you can manage your calls and music.

*\* Note: Requires Huawei EMUI9.1 or later versions, and smartphone with charging enabled USB-C port.*
